

This report lists a subset of Product Lines that are mature, discontinued, or retired. Please contact Emerson sales if have questions.
 Note regarding retirement dates - Emerson strives to maintain support for many years once a product is discontinued.
 This may be affected by component availability and/or related supply chain conditions.

Product	Lifecycle Status	Mature	Discontinued	Retired
Series 90-30	Retired ●	Nov-2015	Jan-2018	Jan-2025
Series 90-70	Retired ●	May-2008	Jul-2011	Jul-2013
Genius	Retired ●	Feb-2011	Jul-2017	Jul-2024
Field Control	Retired ●			Nov-2008
Series 90 Micro	Retired ●			Oct-2005
RX7i	Retired ●	Feb-2015	Apr-2017	Apr-2024
Duras	Retired ●	Feb-2015	May-2017	May-2024
VersaMax Micro	Discontinued ●	Apr-2024	Jun-2025	Jun-2032
VersaMax Nano	Retired ●	Feb-2015	May-2017	May-2024
PAC8000 SafetyNet & PAC8000 Controllers	Retired ●	Nov-2016	Jan-2017	Jan-2024
PACSafe (IC255)	Discontinued ●		Oct-2025	Oct-2032
Fanuc Servo Motion	Retired ●	Nov-2016	Jul-2018	Jul-2025
S2k Series Servo Motion	Retired ●			Jan-2011
VersaMotion	Discontinued ●		Oct-2021	Oct-2028
Mini Field Agent & Virtual Field Agent	Discontinued ●		Jul-2021	Jul-2028
RSTi	Discontinued ●	Oct-2022	Oct-2023	Oct-2030
VersaMax IP (IC676 & IC677)	Discontinued ●		Nov-2022	Nov-2029
Rxi IPC, First Generation Rxi-EP & Rxi-XP	Discontinued ●	Sep-2018	Sep-2020	Sep-2027
QuickPanel+ (IC755)	Mature ●	Apr-2024	Apr-2029	Apr-2036
QuickPanel (IC754)	Retired ●		Jul-2014	Jul-2021
Max-On Redundancy Solutions	Retired ●			Jan-2011
Quad Redundancy Solution	Retired ●			Jan-2012

Definitions

State	Definition	Level of Support
Active ●	The most current product offered, with published pricing, normal lead times, and complete support. These products are recommended for all new systems and major expansions.	Engineering support: Hardware and Firmware updates are provided based on product and customer needs. Technical support: Full support Firmware Available for download: Yes Available for order: Yes
Mature ●	Products that have been functionally replaced by the most current product or have defined migration path, but remain available with published pricing, normal lead times, and complete support. These products are intended for expansion of existing installations where the need for product consistency outweighs the features, performance, and longer-term potential of the current product, or where the current product cannot be sold yet due to certifications or other requirements or spares. The transition to Active status marks the start of the standard product support commitment.	Engineering support: Hardware and Firmware updates are provided based on product and customer needs. Technical support: Full support Firmware Available for download: Yes Available for order: Yes
Discontinued ●	Product support is available, but oriented to maintenance (i.e., Technical Support, replacement parts, repairs, and field services) rather than system expansion. System Lifecycle Planning is encouraged to address long-term support and expansion.	Engineering support: No updates are provided Technical support: Full support Firmware Available for download: Yes Available for order: No
Retired ●	These products are not available for purchase. Product support is limited and on a paid-for annual agreement basis, potentially slower and more costly, and subject to material and labor availability. The transition to Retired Status marks the completion of the standard product support commitment.	Engineering support: No updates are provided Technical support: Limited support Firmware Available for download: If Possible Available for order: No

Emerson will strive to provide a minimum of nine years of product hardware support for Controls and a minimum of four years for embedded and Industrial PC products.

Refer to GFK-3260 for more information on our lifecycle policy.

Revision History

Revision #	Changes	Date
0	Original	12-Oct-2021
1	Added Max-on	27-Oct-2022
2	Formatting	8-Dec-2022
3	Added Quad Redundancy Solution	13-Dec-2022
4	Added Parts Tab	27-Jan-2023
5	VersaMax Micro Mature, RSTi Discontinued, QP+ Mature	31-Mar-2024
6	VersaMax Micro date change (mature end date) due to end-of-life on various components	21-Oct-2024
7	Correct error on RSTi-EP product line, status is Active	24-Oct-2024
8	Removed individual parts sheet, contact your sales team	20-Feb-2025
9	Fanuc Servo Motion retired	7-Jul-2025
10	New QP+ Discontinued Date - March 2029	9-Jul-2025
11	Updated Formatting	2-Dec-2025
12	PACSafe Discontinued	16-Feb-2026
